

Grosvenor Casinos' Game On With Merrychef

Grosvenor Casinos is one of the leading UK Casino operators. Its 28 Grosvenor Casinos' and four G Casinos offer great food, late bars, live entertainment and the best gaming all under one roof.

The casinos offer a variety of menus from formal dining to casual bar snacks. G Casino, Luton, hosts an Italian-inspired menu including Almond Crusted Salmon, Pollo Gorgonzola and Escalope of Veal all cooked using the latest Merrychef 402S oven.

Martin Shaw, Head of Catering for Rank Group, which owns the Grosvenor and G Casino brands, has worked with Merrychef for many years:

"We have Merrychef ovens in all 33 casino kitchens and many staff rooms too," he said. "Moving forward, the 402S, is key to the kitchen format in our new casino concept, G Casino."

"Guests expect choice, high quality food and efficient service. Merrychef's technology is critical to our success in delivering this, allowing us to speed up order to table time, and producing dishes that, in my opinion, are often superior to conventional cooking methods."

Merrychef – the power to cook good food faster
